

Jake, our project manager, was very diligent and communicated well to us as we progressed through the project. The work done by all the crews was well done and of good quality. We have no complaints about the finished product and our building has been a blessing for us as we've continued to grow.

Since completion of the project there have been several issues that needed to be fixed, repaired, or simply altered and T&W has been good to their word on their warranty and been prompt in correcting any issues.
