RE: T&W Church Solutions

I am very pleased to provide you with this recommendation letter on behalf of the leadership and congregation of Westside Community Church. We worked with T&W over a number of years seeking guidance throughout our building efforts. We began our journey as a group of lay people, none of whom had ever "built a church", investigating the challenge that would be before us. From the very beginning T&W, was dedicated, patient and provided not only building/construction support but were able to guide us throughout the entire process. They were able to connect us to outstanding and supportive Capital Campaign resources, Architectural Design services, Acoustical Engineering support, AV Experts, and professional Kitchen designers. They proved to be an invaluable "partner" to our Building Team, Our Pastoral Staff and our congregation.

The support we received from Kurt Williams, Steve Shehorn, Jeff Servies and the T&W team allowed a group of dedicated yet inexperienced people to successfully vision, plan and complete our very large project to expand God's kingdom in Columbus. Not only are they consummate building professionals but spiritual, faithful and committed men of God, who shared our commitment.

We are very pleased with the final product that became home to the Westside Community Church congregation in November 2014, allowing us to reach out, minister to, and provide ministry support and services to the Columbus community.

I highly recommend T&W for any church that needs a "Partner" in ensuring the success of their project.

Sincerely,

Douglas Thomas

Building Chairperson

Westside Community Church of Columbus Indiana
