Indianapolis, Indiana
Mr. Kurt Williams

Kurt,

I want to thank you for the outstanding job that your company and especially your people did in the rebuilding of the education wing of our church that was destroyed in the tornado of June, 2010.

I was impressed with your presentation when we interviewed you, the way you explained how you would work with us to receive the most for the money and how open you would be throughout the process. I found that this was exactly how we were treated. You showed great patience while we worked out the details of what we wanted in the building and in working with the insurance.

I found that working with your people in the field was very easy, as a contractor myself, I know a building process of any size will always have issues that are not expected. I found that what minor changes or potential problems that were raised were quickly dealt with by a call to either Brian Colstreet, your construction manager or Rick Wright your job superintendent. Both men were very good in keeping us up to date during the whole building process.

I know that working with a committee can sometimes be frustrating, but our whole board of trustees was very impressed with the professional manner and expertise that was shown by your team, this kept any problems to a minimum.

Again, thank you for an outstanding job.

Walter Williams
Chair: Board of trustees
Yeoman United Methodist Church
