## PREVIOUS EXPERIENCE

### ***KURT B. WILLIAMS***

Kurt has devoted his construction career to successfully leading project teams of architects, engineers, acousticians and construction managers through the process of Discovery, Architecture, and Construction of church facilities. Kurt's extensive experience with all aspects of the design and construction process facilitates excellent communication between all members of the project team and allows the church to have an efficient and seamless project from start to finish. T&W Church Solutions Projects where Kurt was the Project Lead include:
