Grace Missionary Church
P.O. Box 235
Mooresville, Indiana 46158

Regarding:

T & W Corporation
3841 W. Morris Street
Indianapolis, Indiana 46241

To Whom It May Concern:

It is with satisfaction and appreciation that we write this letter today. Our relationship with T&W began several months ago and not once since have we regretted our partnership. As we go forward, in our new building with the ministry God has charged us, it seems appropriate to express our gratitude to those he sent to assist us.

We were impressed by T&W staff's knowledge of construction, integrity and communication skills. From our early meetings with Kurt Williams and Steve Shehorn we sensed the makings of a good partnership. That feeling proved accurate throughout the entire project as we worked with Bryan Crostreet, Erin Frame and Rick Wright during construction.

We are pleased with the quality of our new building and its features. We are also pleased with the subcontractors suggested by T&W and especially with architect, Jon Byrum.

We would recommend T&W to anyone with the opportunity for new construction or addition to an existing building. Feel free to call with any question regarding our project.

Blessings,

Grace Church, Building Committee
